No Sympathetic Strike.

The Western Mining World, of Butte, says it has closely looked into the reports coming from Leadville to the effect that a sympathetic strike will take place in Montana on account of the labor troubles now existing between the miners and mine owners of that city. It is true that the Butte tuion has generously aided the Leadbox of Arizons oranges to President ville union with a large amount of Cleveland. He should also send one funds to carry on their strike, but to Major McKinley if he wants to hold when it comes to striking in sympathy onto his job. We charge nothing for with them they will find that the Butte union is not built that way. Another report that the mine owners of this state would unite and cut wages 50 cents per day is also absolutely untrue. The only mines in operation in the state are the copper and gold mines, and they are all making money and can afford to pay \$3.50 per day. There has, however, been some agitation over John Blake & Co, at Safford are the advisability of bringing about some running their big flouring mill to the amicable arrangements whereby the limit of its capacity and have their silver mines could be opened up and

Copper Production. A close estimate of the copper production for the mouth of October would show the following in pounds: Lake Superior 13,000,000

Scattering 2,175,000 It now looks as if the United States would produce in 1896 no less than

Western Mining World.

Arizona's Mineral Resources.

Secutor White, of the committee on territories, sava: "Arizona's mineral resources peed no further demonstration than the product of the mines during the last ten years. Every mining man knows that Arizona is one of the greatest mining regions in the United States. It contains large deposits of both allver and gold, and it is especially rich in copper. In respect of minerals it lacks zona to suit him is judged hard to only in coal, but there is a good deposit of coal in the San Carlos Indian reservation, which undoubtedly will soon be brought into use. During the current year the product of Arizona's mines will establish the reputation of

Mining at Payson.

the territory as a gold producer, if any

more of that character is required."

In the Green Valley mining district the gold mines are coming to the front. This district was organized years ago and a little prospecting was done on the surface. Among the currosities is a shaft 18x18 feet inside the timbers that is down 65 feet. Recently practical miners got into the district and have resumed work in a business like way, most of them being

The most promising claim in the disgallons of choice California wine one to pay not only the bonds but back in- Birchett & Chilson, owners. They evening last week. They have learned terest on them to the amount of \$40,000 have just finished a run of forty tons to \$50,000. Should the courts decide with J. I. Coleman which gave them for the county that the bonds are illegal 2094 onness gold in return, 75 per tle is now raised, says the Nogales then Coconino county, recently con- cent of which was caught in the bat-Oasis, and for some months to come structed from a portion of Yavapai, tery.
